We reserve the right to change the schedule if something important happens.

Questions for the ICO

- How severely will the ICO enforce breaches of the GDPR that were not breaches of the DPA?
- What are the circumstances when “legitimate interests” can be used for marketing?
- Can an “opt-out” equate to “consent” under the GDPR?
- What is the ICO view of the requirement to implement Data Protection by Design given that it is new to most data controllers?

Please note;

We can ask the question; whether we get an answer!!!!
